B. Read the text and answer the following questions.

People around the world are slowly changing their attitude towards medicine. More and more they are turning to natural cures. Natural cures are made of natural things most often herbs and plants. History says that natural or herbal remedies are nothing new. People used them all along in different ages. Herbal medicines were used in ancient civilizations like India, China, Greece, Egypt and Rome. Some ancient treatment systems are still in practice today. They have come down through generations.

For a minor burn injury the doctor may prescribe you a tube of ointment. But for the same, your grandma may put some aloe vera or use cold water. If children have cold in our country, grandmas give them honey and tulsi leaves to eat. And it works too. If you have a minor cut or wound, grown-ups may put some turmeric, marigold or aloe vera on it. Rural people usually use garlic, neem or turmeric to cure skin problems. With experience they have seen that these remedies work. Moreover, they are easy to get, are cheap and most often are without any side effects.

2. Answer the following questions.

- a) What are still in practice today?
- b) How have some ancient treatment systems come to us?
- c) What do rural people use to get rid of skin problems?
- d) What are people doing towards medicine?
